Allstrong Restaurant Equipment Inc.

Chinese Wok Range

Description

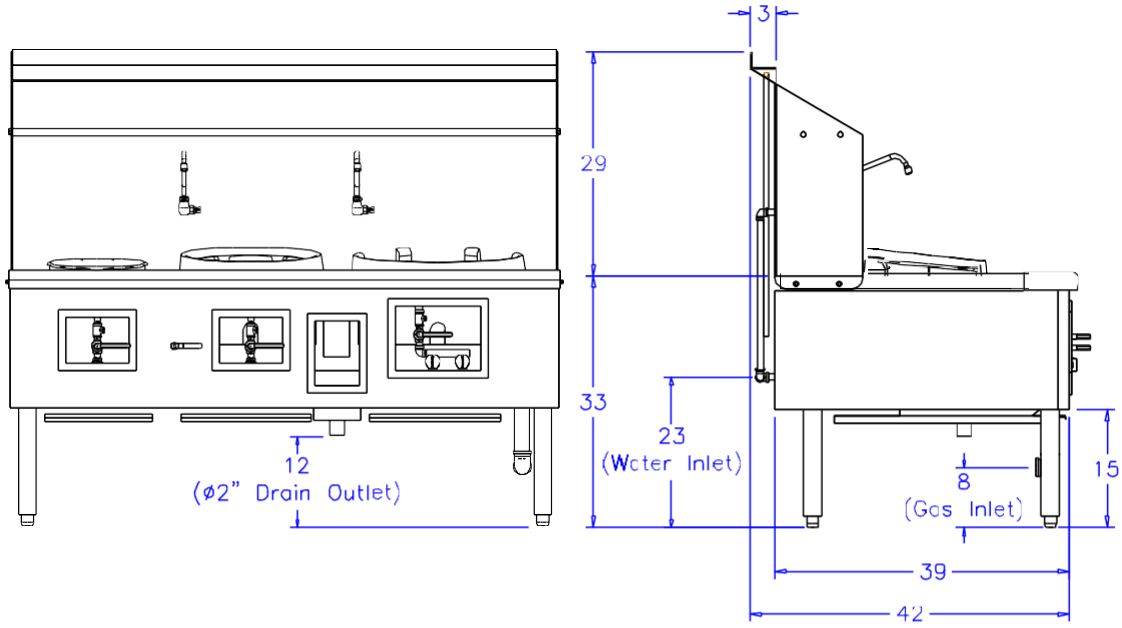

Allstrong Chinese Wok Ranges are custom designed for authentic Chinese cooking styles such as Cantonese, Sichuan, and Shanghai cuisine. Each range features high-output burners that deliver instant high heat and fast heat recovery — ideal for stir-frying, dry-frying, and wok tossing. All units are constructed with heavy-duty stainless steel for durability and easy cleaning.

Standard Feature

- Stove top made 14-gauge stainless steel.
- Choice of back or front drainage tunnel and basket.
- Choice of “Water – Cooled Top” or “Water Fall Backsplash” system.
- 2 pieces Pipe Rack.
- Manually controlled swing faucet installed between wok chambers are able to service for 2 woks.
- Independent grease gav. drip tray placed under each burner to collect debris.
- Gas on/off valve w/ “L” shape, knee level handle provides easy gas adjustment and keeps your hands free for cooking.
- Standard wok chamber size: 13”, 14”, 16”, 18”, 20”, 22” and 24” inches diameter.
- Custom models available with up to 9 burners.
